

SBA 504 Success Story

Providence Animal Hospital & Pet Resort

Dr. Aaron Hollis and his wife, Vickie, were able to achieve their goal of business ownership by securing funds with MADC and Commerce Union Bank through the SBA 504 loan program. They constructed a state-of-the-art veterinary facility located in Mt. Juliet, Tennessee. Providence Animal Hospital has been recognized locally for community enhancement and nationally for the green building initiative. Dr. Hollis said the SBA 504 loan program allowed them to have more flexibility with the resources they needed to build and operate the facility they desired for their caring staff, clients and patients. Providence Animal Hospital strives to help optimize the relationship with your pet by managing your pet's health and addressing non-medical issues such as behavior, training, and boarding.
