

SBA 504 Success Story

Providence Animal Hospital & Pet Resort

Dr. Aron Hollis and his wife were able to achieve their goal of business ownership by partnering with MADC and Commerce union Bank through the SBA 504 Loan Program. They constructed a state-of-the-art veterinary facility in Mt. Juliet, TN. Providence Animal Hospital has been recognized locally for community enhancement and on a national level for their green building initiative.

Dr. Hollis said the SBA 504 Program provided more flexibility with the resources they needed to build and operate the facility they desired for their staff, clients and the pets they serve. Providence Animal Hospital strives to help optimize the relationship with your pet by managing the pet's health and addressing non-medical issues such as behavior, training, and boarding.
