

Poss Dental Designs & Practical Sleep Solutions

Dr. Poss began practicing dentistry over 28 years ago, after graduating from the University of Tennessee Dental School. His practice includes preventative and cosmetic dentistry, treatment of TMJ, and sleep apnea. He has received specialized training in TMJ, occlusions, and cosmetic dentistry.

Technology has always played an integral role in Dr. Poss's private practice, and he is pleased to be an active consultant for several dental manufacturers. He provides his professional opinion on new product development and refinement. He was also one of the select few chosen to open a regional learning center for the enhancement and education of dentists on the latest cosmetic and restorative materials. He is currently the Clinical Director at The Center for Exceptional Practices in Cleveland, Ohio. In 2004, Dr. Poss was recognized as one of America's top Dentists by Consumers' Research Council of America.

Dr. Poss was able to purchase a beautiful office condo in Brentwood, TN for his thriving dental practice by using the SBA 504 loan program in partnership with Pinnacle Financial Partners. He has been delivering sensational smiles in the Nashville area since 1983!
